PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/590,703	Applicant(s) OHSAWA ET AL.	
	Examiner Marie R. Yamnitzky	Art Unit 1794	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The preliminary amendment filed October 30, 2006, which cancels claims 1-33 and adds claims 34-67, has been entered.

Claims 34-67 are pending.

2. Claims 34-67 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The remarks accompanying the preliminary amendment filed October 30, 2006 do not indicate where support is found in the original disclosure for the limitations of the new/present claims.

The present claims define/require a subset of organometallic complexes in which a diphenylquinoxaline ligand, having thirteen possible positions for substitution, is substituted at eight of those positions with a substituent selected from the Markush group set forth in present independent claims 34, 42, 50 and 59, and the other five positions are unsubstituted (i.e. each of the five R variables that is hydrogen per the present independent claims). The presently required substitution pattern is not explicitly disclosed in the application as originally filed, and no specific examples of organometallic complexes within the scope of the present claims are set forth in the original disclosure. Accordingly, it is the examiner's position that the present claims are not supported by the original disclosure.

Art Unit: 1794

3. Provided that applicant can demonstrate that the organometallic complexes as defined in present independent claims 34, 42, 50 and 59 are supported by the application as originally filed, present claims 34-67 will be allowable. The prior art does not disclose or suggest complexes as required by the present claims wherein each of R^7 , R^9 , R^{10} , R^{12} , and R^{14} is hydrogen, while each of the other eight R variables is a substituent selected from the Markush group set forth in the present independent claims.

4. Any inquiry concerning this communication should be directed to Marie R. Yamnitzky at telephone number (571) 272-1531. The examiner works a flexible schedule but can generally be reached at this number from 7:00 a.m. to 3:30 p.m. Monday-Friday.

The current fax number for all official faxes is (571) 273-8300. (Unofficial faxes to be sent directly to examiner Yamnitzky can be sent to (571) 273-1531.)
